

Company: TTI Group Ltd (創科集團有限公司)

WHO ARE WE:

TTI is a world-class leader in design, manufacturing and marketing of Power Tools, Outdoor Power Equipment, and Floor Care and Appliances for consumers, professional and industrial users in the home improvement, repair and construction industries. Our unrelenting strategic focus on Powerful Brands, Innovative Products, Operational Excellence and Exceptional People drives our culture.

WEBSITE: www.ttigroup.com

What you will get from us:

- Full experience on industrial level design, manufacturing and marketing.
- Training on necessary development tools, evaluation kits.
- Hands on experience from product demonstration to a Real Product
- World leading Brushless motor design/control theory
- Robotics design and demonstration

What Are Our Current openings for internship?

Job Title:	Electronics/Embedded System/Mechanical Engineer (Winter Internship)
Duration:	1 month
Job Detail:	We welcome students with the background of either Electronics/Embedded System/Mechanical and interested in Power Tool industry to join the internship. You will get <ul style="list-style-type: none">- Experience on the TTI mainland factory production line- Hands on experience in prototyping in robotics- Learning brushless motor control / Battery management System

Job Title:	Electronics/Embedded System/Mechanical Engineer (Summer Internship)
Duration:	3 months
Job Detail:	<p>We welcome students with the background of either Electronics/Embedded System/Mechanical and interested in Power Tool industry to join the Summer internship. You will be involved in a product demonstration from seeking good features for user to making a functional prototype.</p> <p>You will get</p> <ul style="list-style-type: none"> - Experience on the TTI mainland factory production line - Hands on experience in prototyping in robotics - Learning brushless motor control / Battery management System - Opportunities that contribution to a working prototype

Job Title:	Electronics/Embedded System/Mechanical Robotics Engineer
Duration:	6 months
Job Detail:	<p>We welcome students with the background of either Electronics/Embedded System/Mechanical and interested in Power Tool industry to join the Summer internship. You will be involved in a research project that need to have a deeper look in a certain technology for future products.</p> <p>You will get</p> <ul style="list-style-type: none"> - Experience on the TTI mainland factory production line - Hands on experience in prototyping in robotics - Learning brushless motor control / Battery management System - Opportunities that contribution to a working prototype - Deeper understanding on specific technology (UWB positioning, Bluetooth Communication, Path planning, Robot control, Battery management System, Brushless motor control)

If you are interested in the above posts, please don't hesitate to contact John Cheung (john.cheung@tti.com.hk) for further discussion. Please also send your Resume for selection. We will reply you as soon as possible.

The above applications deadline: 25th May, 2018
