

# UNRE AI Limited

UNRE AI Limited is an advanced technology company based in Hong Kong Science and Technology Park. We specialize in state-of-the-art 3D photography, Computer Vision, and application of artificial intelligence to 3D images. We have openings for passionate professionals interested in expanding the frontiers in our area of expertise.

## Senior Engineer (Vision Intelligence)

### Responsibilities:

- Participate in algorithm design in Vision Intelligence including face recognition, object recognition, pattern recognition
- Responsible for algorithm implementation and testing
- Cooperation with hardware engineer and provide system integration solution

### Requirements:

- Master's Degree/ Bachelor's Degree with 2+ years' experience in Computer Science, Computer Engineering, Information Engineering or related disciplines
- Excellent development and debugging skills in using at least one of the following language: C/C++, Python, JAVA and Assembly
- Familiar with at least one of the following machine learning platforms: TensorFlow, Caffe, Torch, Theano, Keras, PyTorch
- 1+ years' Experience in deep learning algorithm as well as traditional computer vision and pattern recognition algorithms
- Experience in Linux system, GPU programming, compiler, OpenCV, OpenCL and parallel computing is a plus
- Candidate with excellent academic background but less experience will be considered as Engineer ( Vision Intelligence )
- Fast learner of new technologies, good communication skills, self-motivated and passionate in vision intelligence
- Fluent in English/ Mandarin/ Cantonese
