

Part-time internship

Title: Project Manager, Sensors for Data Capture in Manufacturing Operations

Host Organization : Fung Academy, a member of the Fung Group (see below)

Location: Hong Kong

Duration: September to December 2018. (possibility to start immediately).

Job Description: The project manager will manage an Internet-of-Things (IoT) energy efficiency program for Li & Fung's partner factories in Asia. The previous project manager has worked in developing the IoT package and the supporting program framework. The role involves rolling out the program to partner factories, beginning in India and China.

Roles and Responsibilities

- Lead project teams composed of Li & Fung's Vendor Compliance and Sustainability (VCS).
- Facilitate communication between Li & Fung's VCS Teams, local sensor companies, and partner vendors and factories in China and India.
- Centrally facilitate program implementation in China and India.
- Develop similar program in Vietnam, Indonesia, and other countries per Li & Fung's strategy.
- Conduct case study interviews and user-testing in factories to improve the IoT package, and program implementation.
- Report progress to senior managers from VCS and the Fung Academy.

Skills and Experience

- Experience in project management and coordinating cross-functional, geographically dispersed teams
- Experience in working with factories and contractors in Asia
- Background in Engineering; Electrical Engineer or related fields is a plus; experience with IOT also good
- Business experience would be an asset. (MBA/Masters in Engineering candidates especially encouraged to apply)

Time Requirement

- 15 hours per week

Stipend

- A nominal stipend will be offered, and any travel to factories or other offices will be covered by the company.

Contact:

- Please apply with a cover letter stating relevant experience and interest, cv, and available start date, to chelseachong@fungacademy.com.

About the host organization

The Fung Group is a privately-held business group of companies headquartered in Hong Kong, whose core businesses are engaged in Trading, Logistics, Distribution and Retailing. Li & Fung Limited (SEHK: 00494) is the leading consumer goods design, development, sourcing and logistics company for major retailers and brands around the world. It specialises in responsibly managing supply chains of high-volume, time-sensitive goods, providing sophisticated one-stop-shop solutions to meet customers' specific needs.

Global Brands Group Holding Limited (SEHK: 00787) is one of the world's leading companies for branded apparel, footwear, fashion accessories and related life-style products. It designs, develops, markets and sells products under a diverse array of controlled and licensed brands and a wide range of product categories.

Fung Retailing Limited operates the Group's fourth core business of retailing with publicly-listed entity: convenience stores and bakeries through Convenience Retail Asia Limited (SEHK: 00831); investment in premium menswear through Trinity Limited (SEHK: 00891), plus a number of privately held entities serving the Asia based consumer.

As of 2017 the Fung Group has consolidated revenues of over USD \$22 billion and over 40,000 employees worldwide.
